Rising Stars Theatre Program

Our Rising Stars Theatre Program is designed to develop confident, well-rounded performers who shine both onstage and off. Students will learn the full theatrical process—from auditions to set strike—while building essential skills in singing, acting, and dancing. Through hands-on experience in rehearsals and live performances, students gain the tools they need to thrive in school and community theatre programs, as well as our own productions. Whether your child is stepping into the spotlight for the first time or looking to take their performance skills to the next level, Rising Stars will nurture their passion and help them grow into dynamic, capable theatre artists.
